Bryan and Clark are scheduled to speak together at the Southern Society Banquet in Washington May 10.

Secretary Bryan's trip to California failed to turn the Legislature from its purpose to pass an anti-alien land law.

Former Senator Wm. Lorimer, ousted from the Senate, is preparing to seek a vindication by running for election by popular vote in Illinois.

Whether he holds Scutari or not, King Nicholas has succeeded in getting himself advertised. People are actually beginning to ask where Montenegro "is at."

Representatives of the Government, the Louisiana Purchase Exposition of 1904 and the city of St. Louis dedicated the \$150,000 Jefferson memorial Wednesday.

After all the fuss made over his illness, the Pope appears to have had nothing worse than a case of the grip. His recovery is said to be complete, in spite of the bulletin given out by his two doctors that any improvement would necessarily be only temporary as his condition was hopeless.

Gov. Carranza, the constitutional leader in Mexico, has issued \$5,000,000 of paper money redeemable when his party secures control of the National Government and issued an order to imprison any one refusing to take the money at face value. That beats the Mexican 50-cent dollar we used to hear so much about.

The Louisville Post is not pleased to see Senator James is opposing the Beckman machine for federal offices and says Mr. Beckman is a great leader whose services the state needs. If we mistake not, Mr. Beckman was the undisputed leader when he was himself defeated for the Senate and the state went Republican at the close of his administration by 18,000 votes. When men like James and Stanley lead, they lead to victory.

SOLDIER PONIES ARE
WITH GENTRY BROTHERS

Perfectly Trained Little Steeds
Execute Company
Drill.

The only company of soldier-ponies in the world is coming to this city May 9 with Gentry Brothers Shows. These little animals, in addition to being selected for grace and beauty, were chosen for their intelligence from among hundreds of their kind at the great stock farm of Gentry Brothers in Indiana.

The little horses march, counter-march, form two and four, and drill as perfectly as any company of soldiers. Their performance is an evidence of what can be accomplished by patience and kindness with dumb brutes. To educate them to work by the wave of the hand, and execute difficult formations in company drill is a task accomplished only after years of effort.

This company of ponies has its captain, just like real soldiers. Their drill is exactly that of the regular army for militia companies. That these equine wizards enjoy their work is demonstrated by their willingness to act quickly.

The ponies are but one of the many features with Gentry Brothers Shows this season. Allied with them in presenting the biggest exclusively trained animal shows are creatures of many kinds, ranging from the elephant to the common house cat.—Advertisement.

TEACHERS'
PLATFORM

U. S. Commissioner Claxton
Joins in Applause at
Louisville.

SEES HOPE FOR THE FUTURE.

Improvement To Be The Order
of The Day All Along
The Line.

Louisville, Ky., May 2.—United States Commissioner P. P. Claxton joined in the applause yesterday when delegates to the Kentucky Educational Association, midst wild applause, adopted a platform which is expected to revolutionize the state's educational policies.

"With all my heart and soul," the commissioner said, "I endorse that platform. If it is carried out, you will have new a Kentucky in 1920."

The platform provides for the absolute divorcement of educational affairs from politics, improvement of rural schools, consolidation of district schools where practical, extension of common school terms, better trained teachers, better pay for teachers, teaching of agriculture and home-making in schools, more efficient truancy law, good roads aid and reform of taxation system.

There was no hitch in the adoption of the progressive program. The standpatters were completely routed.

PROF. L. E. FOSTER

Candidate For County School
Superintendent, In Louis-
ville.

Believing that his nomination by the Democrats at the August primary is almost assured, and also having confidence in his ability to win at the November election, Prof. L. E. Foster went to Louisville Wednesday to catch on to a few things of importance at the meeting of the Kentucky Educational Association.

Prof. Foster has been doing a good deal of bush-beating and finds that people of all the different parties are for him for the position he seeks.

EVENTIDE WEDDING

Nomadic Horse Trader Lands
in Hopkinsville and Takes
Unto Himself a Wife.

Wednesday evening, after office hours and after Judge Knight had gone to his home and partaken of his evening meal and settled himself on his front porch for a good, quiet smoke, he was disturbed by a call over the phone. He was wanted at the Clerk's office to unite the destinies of Miss Annie Barnes, of Alabama and Mr. E. L. Wilson, of Nashville. The Judge is one of the most accommodating men in the world when it comes to marrying people, and he hastily responded to the call. Vego Barnes had already been found and had issued the license, so there was nothing to be done but for his Honor to speak the words that would send the couple on their way to future happiness—and he did it in his usual solemn manner, without any unnecessary trimmings.

The union of the couple had about it a tinge of the romantic. The groom has been traveling from state to state dealing in horses for years, and when he at last struck the best town on earth, and as his affinity happened to be here at the same time, he determined to break off the shackles of single blessedness and become a benedict.

THE LIBRARY
PLANS SENT

To the Carnegie Library As-
sociation Thursday For
Approval.

BEAUTIFUL BRICK STRUCTURE

Local Firm of Architects Won
Out Against Strong Out-
side Competition.

It won't be a great while until work will be commenced on the Carnegie Library, to be erected in Peace Park, at the south-east corner. Waller & Brodie sent the drawings and specifications to the Carnegie Library Association last Thursday. The plans will no doubt be approved by the Association, as they have been furnished with every detail. It is probable that the designs will be returned in a month, or even sooner. As soon as they arrive the local committee will invite bids, for the work of construction. The grading has long since been completed and everything is ready for work on the library building to begin.

The front elevation is a beauty. Without going into details we will say that nothing to be done in beautifying Peace Park will make the resting place more attractive than the library building.

The foundation walls are to be of stone and will be several feet above ground. The walls will be of pressed brick, either buff or grey in color, with terra cotta trimmings. The roof will be of slate.

It will be a source of gratification to our readers to know that local architects won in a warm contest for designs that were submitted to the library committee. Messrs. Waller & Brodie are building up a reputation in their profession, which is evidenced by the fact that buildings of their designing can be found in all parts of this section of the State. In the contest for designs for the library building they won out against two concerns that are recognized as leading library architects.

GREEN WILL AVIATE
IN CARDUI FLYER NO. 2

At Confederate Reunion at
Chattanooga—Co-operate
With Medicine Co.

Chattanooga, Tenn., May 2.—Confederate Veterans going to the Chattanooga Reunion next month will have an opportunity of deciding for themselves what it feels like to have a war aeroplane to fly over a military camp.

Johnny Green, the famous aviator, has been employed by the Reunion Entertainment Committee to make three flights in his 70 horsepower war aeroplane, "Cardui Flyer No. 2" over the parks in which the Confederate Veterans will be encamped. The cost of the flight is co-operated in by the Chattanooga Medicine Co., with the idea of helping entertain visitors during the Reunion.

Military men agree that the battle of Chickamauga might very well have ended differently if war aeroplanes had been in use at that time. The Veterans who are to be the guests of the city of Chattanooga in May, will have ample time to discuss this interesting question, as they go over each phase of the battle on the field where the conflict can be so easily reconstructed with the aid of the hundreds of tablets, monuments and markers, the Government has so carefully placed at all strategic points.

WORK ON THE
FAIR GROUNDS

Grading of Track Was Begun
Monday and Will Be
Rushed.

TRAINER IS ALREADY HERE.

An Amphitheatre is Also Being
Planned By Committee
and Architects.

A force of hands was put to work last Monday on the track of the Pennyroyal Fair Company, and have made good progress. The grading shovels will be here to-day, and the first of the coming week a full crew will be put on and the work of grading the track will be rushed to speedy completion.

The committee having in hand the plans for the amphitheatre is composed of Odie Davis, R. M. Woolridge, J. J. Metcalfe, John White and E. C. Radford. They and the architects have conferred time and again and a tentative plan has been agreed upon and will probably be adopted. It is to be nearly straight and 332 feet long. The seating capacity will be ample, but if necessary can be easily increased.

The company has been fortunate at the outset in getting a professional trainer, Mr. Adams, who has been here several days and already has a nice bunch of horses to start with. Mr. Adams came here from Michigan and is known to be a most capable man.

THE KING FISHER

Has No Idea of Starting Fish
Market—Just Catching
'Em For Fun.

Don't think that Irving Roseborough is going to start a fish (fresh) market because he has caught more of the finny tribe in one day than anybody else. He says he is just fishing for fun and wants to let the Clarks, Higginsons and two or three other professionals in these parts know that anybody can catch fish—when they bite. They bit for him last Tuesday and he caught just 70 before coming home, varying in size from four inches to smaller, much smaller—almost the gourd-seed family.

HEIGHT OF CLOUDS

Instruments for Measuring Elevation and Movement.

Workings of the Besson Nephoscope, an Ingenious Device for Extracting Secrets From the Skies—Motion of Vapor Masses.

How many people that one meets in the course of the day have ever observed carefully the motion of the clouds that are so uncomfortably prevalent this summer? Or, if asked about the matter would not most of them say that the clouds move in the same directions as the wind at the surface of the earth? Perhaps one more observant than the rest would recollect that thunder clouds have a way of coming up "against the wind," and he might even add that he had observed a high cloud moving in a direction different from one lower down. Again, would not most people say that the "mare's tail," or, as the meteorologist would call them, the cirrus clouds, never move at all, or, at least, only very slowly, and that low clouds move more quickly than the cirrus?

Meteorology—the word which has lost its original meaning to such an extent that it now denotes simply "the science of the atmosphere," and includes, therefore, the study of climate and weather, including clouds and their motions—has extended its operations within recent years very notably by considering more definitely the conditions prevailing in all the layers of the atmosphere and not merely in the surface-layer. It is true that clouds have been observed and their motions studied scientifically for a long time, but since instruments carried by kites and balloons have taught us so much about the temperature conditions in the air up to heights of sixteen miles and more, a renewed interest has been taken in the forms and motions of clouds, for the motion of a cloud usually (but not always) indicates also that of the air in which it is floating.

One of the best instruments for observing the motion of a cloud is the Besson nephoscope. The instrument consists simply of an inverted harrow or comb fixed horizontally at the end of a vertical rod which is mounted in bearings carried by an upright post, so that the rod can be rotated. Near the bottom of the bar is a crosspiece, to the ends of which two strings pass to the hands of the observer, while underneath is a circle graduated with the points of the compass. The method of observation is to select the cloud to be observed, stand on the side of the post opposite the upright rod and therefore the comb until the cloud appears to pass along the points of the comb. It will be necessary to approach or recede from the pole until this appears to take place. Then, standing still, note the time the cloud takes to move from one point to the next. Finally, note the orientation of the comb by means of the graduated circle at the bottom of the rod. This gives at once the direction of motion of the clouds while the apparent velocity of the cloud along the comb is a measuring of the rate at which the cloud is moving, expressed in terms of the height of the cloud. For example, if two clouds at heights of 3,000 feet and 6,000 feet appear to be moving at the same rate along the comb, then the latter is actually moving twice as fast as the former.

The height of a cloud is not so easily determined. Usually two observers, each provided with a theodolite, are required, but sometimes one theodolite can be made to suffice. This instrument has its telescope removed and two parallel plates of glass arranged in place of the telescope. Then two images of the cloud—one formed by reflection in the glass, the other by reflection in a small sheet of water lying on the ground below, are made to coincide by rotating the plates of glass. The position of the plates so determined is read off on the graduated circle shown near the observer's hand. The height can then be computed mathematically.

As a result of these observations, it is found that, in general, if one stands with one's back to the wind, low clouds move in about the same direction as the surface air, while the higher clouds travel nearly in the same direction, but have a motion from left to right which becomes more pronounced as the height increases. High clouds usually travel much more quickly than low ones, although apparently they do not.

The highest clouds rarely exceed a height of six miles.

Suicide That Is Glorious.
Captain Oates may have had some sort of premonition of the stern and self-imposed necessity that drove him out into the Antarctic ice field in order that his own disabilities might not hamper the movements of his companions. Mr. Ponting, the photographer of the expedition, says that he once discussed with him this very question—If a man broke down on a polar journey, what should he do?—and that Captain Oates replied, "There's nothing for him to do but to destroy himself." And so we find the whole world applauding an act of suicide, which is base only when committed for a selfish end and sublime when the self-taken life is sacrificed to the welfare of others.

COST OF FLOWERS

Total of \$12,000 Annually for White House Blooms.

Propagating Gardens and Greenhouses Kept by Government—Plants in Colonial Gardens South of Terraces Surrounded by Hedges.

Washington.—To provide the White House with cut flowers daily and the grounds surrounding it with shrubs and blooming plants in season, the United States pays out every year \$12,000. No other appropriation for the needs of the executive mansion is expected to prove as interesting to the present "first lady of the land," for Mrs. Wilson is a lover of flowers—even more so, if report be true, than the wife of any president in recent administrations.

From the Roosevelt regime Mrs. Wilson has inherited, as did Mrs. Taft, improved facilities for supplying the White House with flowers for state occasions and daily use. Originally the White House conservatories were located on the west terrace. In 1902, while former President Roosevelt was in office, they were removed to the south side of the Washington monument, where they now form a part of the propagating gardens.

In all, 16 greenhouses are maintained in the propagating gardens for the exclusive needs of the executive mansion and grounds. Congress appropriates annually \$9,000 for their maintenance and \$3,000 for repairs.

Mrs. Woodrow Wilson.

The removal of the conservatories to their present location was a part of the general renovation of the White House which took place during the Roosevelt administration, and cost the government approximately \$500,000.

After the executive mansion had practically been made over, Mrs. Roosevelt became interested in the question of improving the White House lawns, and, at her suggestion, two large flower gardens were laid out. These are known as the colonial gardens, and they not only received the personal attention of Mrs. Roosevelt, but was a source of pleasure to Mrs. Taft.

No new flower gardens were laid out in the executive mansion grounds during the administration of President Taft, and it is not likely that any will be added while the Wilsons are occupants of the White House, for expert landscape gardeners have declared that the present arrangement cannot be improved upon.

But the next four years may witness the installation of facilities for increasing the productivity of the propagating station, which supplies the nation's mansion with flowers.

The first duty of the officials in charge of this station is to see that the White House is supplied daily with cut flowers, and that the floral decorations for the state occasions are the best that Uncle Sam can produce. Huge bouquets are placed daily in the rooms of the executive mansion and in the office known as the president's workshop. Even the presidential bouchée is not slighted.

Propagating Gardener Charles Henlock and his assistants face their principal task in preparing for the big state occasions. The White House, then is literally a bowled of flowers. Particular attention is paid to the color scheme and only one kind of flower is used.

The bumper crops of the last year not only have enriched the farmer, but they have served to increase the wages of farm laborers. A bulletin issued by the department of agriculture the other day declares wages paid to such laborers have increased about 3.2 per cent. during the year and 7 per cent. during the last two years.

"Since 1902," says the bulletin, "the increase has been about 34 per cent." The current average rate of farm wages in the United States when board is included, according to the bulletin is by the month \$20.81; by the day, other than harvest, \$1.14; at harvest, \$1.34. When board is not included the rate is, by the month, \$29.50; by the day, other than harvest, \$1.47; by the day at harvest, \$1.87. The wages vary in different parts of the country.

The wages paid farm laborers now, when compared with the average wages during the '90s, are about 53 per cent. higher; when compared with the low year of 1894 the present wages are about 65 per cent. higher, according to the department's figures.

THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD

Practically a Daily at the price of a Weekly.

No Other Newspaper in the World Gives So Much at So Low a Price.

This is a time of great events and you will want the news accurately and promptly. The Democrats, for the first time in sixteen years, will have the Presidency and they will have the Presidency and they will also control both branches of Congress. The political news is sure to be the most absorbing interest.

There is a great war in the Old World, and you may read of the extinction of the vast Turkish Empire in Europe, just as a few years ago you read how Spain lost her last foot of soil in America, after having ruled the empire of half the New World.

The World long since established a record for impartiality, and anybody can afford its Thrice-a-Week edition, which comes every other day in the week, except Sunday. It will be of particular value to you now. The Thrice-a-Week World also abounds in other strong features, serial stories, humor, markets, cartoons; in fact, everything that is to be found in a first class daily.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and the Hopkinsville Kentuckian together for one year for \$2.65.

The regular subscription price of the two papers is \$3.00.

DID NOT LOOK LIKE WORK

German Servant Girl's Opinion of the Home Labors of Literary Man.

A young lady, lately and happily married, has a literary man for a husband, who does all his work at home.

It was very good work, and pays very well, and, as they are newly married, they are delighted with the opportunities for being almost constantly together.

Recently they got a new servant, a buxom German girl, who proved herself handy, and also seemed to take a deep interest in the young couple. Of course, she saw the husband in the house a good deal; but her mistress was not prepared for the following:

"Eggscuse me, Mrs. B—; but I like to say somedings to you."

"Well, Rena?"

"You won't be grieved by me alretty?"

"Why, what is it you wish to say?"

"Vell, you pay me £2 a mont—"

"And I can't pay you any more," interposed the mistress decisively.

"It's not dot," responded the girl; "but I find I be willin' to take 30 shillings till—till your husband gets work!"—London Tit-Bits.

EASY

The Suburbanite—What will be the outcome of the simple life?
The City Man—A simple death.

THE ONE EXCEPTION.

"You say that the bride was plainly nervous?"

"Yes."

"But she's been married three times before."

"That's true. Notwithstanding, she appeared to be as frightened as a young woman."

"Then in every respect it was just like a first wedding?"

"I should say so, with one exception."

"And what is that?"

"The bride's mother didn't weep. It seems she's got past crying when that daughter gets married."—Detroit Free Press.

TIRE SOME REPETITION.

"I'm going to quit attending the opera with Millbanks."

"What's the matter now?"

"When we issue from the theater and he sees a wilderness of taxicabs, limousines, touring cars and other vehicles, into which fine ladies are piling helter-skelter, he invariably strikes a pose and says, 'Tumultuous grandeur crowds the blazing square.'"

PRACTICAL POLITICS.

"People say you've been sheriff too long, Jim."

"I expect I have. They also say you oughter step down and let somebody else be postmaster."

"I admit I've been postmaster long enough."

"Well, after this term, s'pose we exchange places?"

AGITATING AN OLD PRODUCT.

"Yep," said the Chautauqua man who had struck the right side of the oil boom, "I'm goin' to send my darter to Boston to learn culture and refinement."

"And how about your son?" asked the visitor.

"Him? Oh, I'll send him to Cleveland to learn the refinement."

EXCEPTION.

"One advantage it has over a horse is that an automobile never is fatigued."

"I don't know about that. Its wheels generally look tired."

EVEN.

Gunman—Ha! ha! I fooled ye all right. This here gun ain't loaded.

"Don't mention it, old top. That roll I gave you is stage money."—Life.

Terrible Picture of Suffering.

Clinton, Ky.—Mrs. M. C. McElroy, in a letter from Clinton, writes: "For six years, I was a sufferer from female troubles. I could not eat, and could not stand on my feet, without suffering great pain. Three of the best doctors in the state said I was in a critical condition, and going down hill. I lost hope. After using Cardui a week, I began to improve. Now I feel better than six years." Fifty years of success, in actual practice, is positive proof that Cardui can always be relied on, for relieving female weakness and disease. Why not test it for yours? Sold by all druggists.

KAISER PLANS NEW CANAL

Contemplates Building a Waterway From the Rhine River to the North Sea.

The decision of the Belgian government to build a great canal from Antwerp to Liege, in order to supply that port with Belgian coal in place of the English article, has been seized upon in Germany as a strong argument for building a canal from the lower Rhine along the Dutch frontier to the North sea at Emden.

It is suggested in this connection that the Belgian canal be extended from Liege to the Rhine, thus making a great internal waterway from Antwerp to Emden.

At a recent meeting of the budget committee of the Prussian diet the minister of public works and railways said the government was deeply interested in the Rhine-Emden project, and this remark has given the friends of it renewed hope for its realization.

They argue that the new canal must be made spacious enough to accommodate vessels of 6,000 tons, in order to enable it to compete successfully with the Rhine, which can carry vessels of only 3,000 tons.

Of course the chief argument for building a connection from the Rhine to the Belgian canal at Liege is that it would give much cheaper transportation for German iron and steel to the seaboard. Antwerp is the chief exporting point for German steel, but the long railway haul is a great handicap to the export business.—New York Tribune.

Made His Blessing Retroactive.
The father of a family who had been striving to bring up his children in the way they should go was very much annoyed at his son's uncouth habit of helping himself to a few bites before grace had been said. The stereotyped form called for: "A blessing on what we are about to eat," but one occasion being particularly exasperating, he astounded the young man by adding to his petition, "and on that which has already been eaten."

TINIEST TEACHER ON RECORD

Librarian Learned Little Tot Was Giving Reading Lessons to Grown-up Italian Girl.

By standing very straight, he could just look across the top of the librarian's desk. His eyes met the librarian's squarely when she accused him of having kept "Fifty Famous Stories" out for three months. He explained that he had left it for a day at the end of each two weeks, and the librarian, accepting the explanation, considered the matter settled. Five minutes later, when she glanced up from her work, she found him still there.

"Little boy, what do you want?" she cried.

"Please, ma'am, that book."

The librarian looked at him helplessly. "But you've had it three months already. Why don't you take some other?"

"Because that's the only one she likes. I've tried another, and she won't look at it."

"She?" the librarian repeated, inquiringly.

"Yes'm. The one I teach."

"You mean your teacher?" the librarian corrected him.

"No, ma'am, the girl I teach."

The librarian put down her pen, and gave her full attention to the matter.

"How old is she?" she asked.

The diminutive teacher eyed her critically. "Bout as big as you," he decided. "She's an Eytalian. Her father mends shoes in the basement at the corner of the avnoo. He's mean to her; and she can't talk English, and she don't know anybody, and she cries lots. So I'm teaching her to read, evenings."

"Don't you get sleepy?" the librarian asked. There was no amusement in her voice now.

The boy nodded, half-ashamed. "Yes, ma'am, sometimes. But," he brightened up, "but she's learnin', and when she knows English she'll like this better than Italy, you see?"

A moment later the smallest teacher was hopping down the steps; he carried the "Fifty Famous Stories" under his arm. And back in the library the librarian was thinking—many things!—Youth's Companion.

NOT LOADED.

Mrs. Wise—Will you come home straight from the club tonight?
Mr. Wise—You mean to come straight home.

Mrs. Wise—No, I mean to come home straight—no zigzag walking.

DECEPTIVE APPEARANCE.

An old family coach, with the driver on the box, was waiting at the railway station. Beside the carriage stood a gentleman who had come down to welcome his brother home.

The expected guest was a portly old Virginian who tipped the scales at 250 pounds.

When the old negro coachman espied the incoming train rounding a curve, he exclaimed:

"I know Marse William's on dere, Marse Frank, 'cause see how dat kyar kreens!"—Youth's Companion.

GUARDING A TREASURE.

"We have a jewel of a cook!"

"That's fine!"

"Yes. Only we have to eat at a restaurant three times a week to keep her from complaining of overwork."

LOST HER VOICE.

"She's the most popular woman in her set."

"She used to be until she won three card prizes in a row."

WHICH IS WORSE?

"The doctors say that auto riding causes flat feet."

"Yes, and flat purses."

INDICATIONS OF IT.

"Aunt Prim says she likes chops."

"I don't wonder with that hatchet face."

THREE THINGS YOU NEED...

"Kentuckian"
A wide, newsy newspaper with the interest of the entire community at heart. Issues of fact are handled without fear or favor. You will find in this paper an up-to-date department for each member of the family. Clean, honest, straightforward—it is a paper your family should not be without.

Technical World Magazine

Is the one magazine that not only entertains in a fascinating manner, but which also instructs. It is the magazine for the busy business man, or for the person who wants to fill away a summer's afternoon, and be agreeably informed at the same time. It is profusely illustrated, and tells in a simple and interesting way of the discoveries of scientists, the achievements of inventors, the feats of engineers and explorers, and the opening of every new field of human endeavor. What Jack London says—"I have just chanced upon my first copy of TECHNICAL WORLD MAGAZINE. There isn't anything like it. I want more, and I cannot wait for them to come, so I am sending you herewith check for which please enter my subscription and send me immediately the last two years' back numbers."

A Fine Atlas

This one is just off the presses. This is the year to obtain a new atlas. The 1910 Census has just been completed, this atlas contains the official figures, 128 pages of 3 color maps brought right down to date—every map giving the results of the most recent surveys. All railroads are shown and colored and maps of all large cities are included. There are 21 double-page maps showing in detail portions of the U. S. and Canada. Dimensions 10 1/2 x 13 1/2. Bound in stiff linen—Silver Leaf Title—printed on heavy plate paper. Sells regularly for \$3.00. A splendid gift.

ALL THREE Only \$3.80

Special arrangement with Technical World Magazine and the publishers of this Atlas make this offer possible. But it is very strictly limited. You must act immediately.

FIRST GAME

Of Season By Locals Lost To Lexington.

Nine to fourteen was the discouraging score at the ball park Wednesday afternoon. The reason for discouragement was that the fourteen runs were won by Lexington. But, under the circumstances, the fans have good ground to believe that the home team is going to play the genuine article of ball the coming season. When it is remembered that Lexington has had three straight weeks of practice and the home team has had no practice at all—the men not being able to call the names of the members of the team—the wonder is that Lexington didn't shut our boys out. Kalkhoff, behind the plate, demonstrated plainly his ability to receive the sphere when it comes his way. We had two men in the box, Lexington three. Another game was in progress when we went to press yesterday.

Women Demand Penalty.

Washington, May 2.—Women of Washington went to the District of Columbia court of appeals with a protest against the laws delay in the execution of Nathaniel Green, a negro convicted and sentenced to be hanged for assaulting Mrs. Adelaide Grant. The crime was committed last Christmas night almost in the shadow of the dome of the national capitol. Greene was sentenced to die March 25, but has been reprieved twice, his counsel fighting for a new trial on the ground that the court erred in refusing to accept a plea of guilty, which would have made the negro immune from the death penalty.

Mrs. M. A. Meacham, of Gracey, who spent several weeks visiting her children in the city, returned home yesterday.

TOBACCO MARKET

There was a very decided falling off this week in the deliveries of loose tobacco after Monday. From that way deliveries began it looked as if there would be an unusual movement for this season of the year, but Wednesday's rush did not continue longer than that day. It is presumed that on Saturday before those having not delivered all their crops loaded up and sent the wagons to town Monday to open the way for active farming operations for the balance of the week. As most of last year's county crop has been delivered further deliveries may only be looked for from the counties that have been sending their tobacco here this year.

Prices have been fully up to those of last week. The hoghead receipts this week were 189 in excess of last week. The hoghead sales were 74 in excess of last week. On the loose floor the sales were 113,335 lbs. over last week.

Inspector Abernathy's weekly report follows:

PROF JOHN BURNETT,

Of Pembroke Neighborhood,
Seriously Injured
Thursday.

Prof. John Burnett was thrown from a horse Thursday and yesterday morning was lying at his home in an unseemly condition at 7 o'clock.

Prof. Burnett lives about 3 miles South of Pembroke and while out on the farm driving cattle the horse he was riding suddenly turned and threw his rider to the ground. Prof. Burnett fell on his head and right shoulder with such force that he was rendered unconscious. When Drs. Paine and Barker were summoned they found the shoulder badly crushed.

Prof. Burnett is well known in the Pembroke neighborhood, having taught school in the county and in Pembroke for several years.

TODD COUNTAIN

Held Over to Federal Grand Jury.

Eck Rager, of Todd county, was brought here yesterday by an officer and his examining trial was held before Commissioner Clark in the afternoon. Roger is charged with selling liquor without a government license. He was held over by the court and a bond of \$200 was executed for his appearance before the federal grand jury in Owensboro at the next term of court.

CRITTENDEN FARMER

Coming to Christian And More to Follow.

McReynolds & Radford have just sold to Mr. R. H. Kemp, of Marlon, the fine farm of Ward & West, six miles East of town on the Fairview pike, containing 415 acres. Mr. Kemp will move his family here this fall and he says more Crittenden county people are to follow. One thing that caught Mr. Kemp was our good roads.

SECOND WEEK

**Of Carnival Closes Tonight
With Record Crowd.**

The Odd Fellows and the carnival people are to be congratulated on their persistent fight against adverse circumstances and winning out at the end of the two-weeks carnival, which closes tonight. If the weather conditions are favorable a record crowd will be out tonight and today's attendance will doubtless be larger than any other since the opening day. Whilst the carnival has not been a bonanza, yet by close economy and an open free gate this week, the receipts will go beyond the expense account and the Odd Fellows will realize a small sum for their faithful support of the Moss Brothers in putting on the carnival at the busiest season of the year. The second week here was an absolute necessity as the Moss Brothers were without a date elsewhere, owing to the recent floods.

WOMAN SUFFERED TEN YEARS

**From Nervousness Caused by
Female Ills—Restored to
Health by Lydia E.
Pinkham's Vegeta-
ble Compound.**

Auburn, N. Y. — "I suffered from nervousness for ten years, and had such organic pains that sometimes I would lie in bed four days at a time, could not eat or sleep and did not want anyone to talk to me or bother me at all. Sometimes I would suffer for seven hours at a time. Different doctors did the best they could for me until four months ago I began giving Lydia E. Pinkham's Vegetable Compound a trial and now I am in good health." — Mrs. WILLIAM H. GILL, 15 Pleasant Street, Auburn, New York.

"Doctor's Daughter Took It." St. Cloud, Minn. — "I was so run down by overwork and worry that I could not stand it to have my children talk aloud or walk heavy on the floor. One of my friends said, 'Try Lydia E. Pinkham's Vegetable Compound, for I know a doctor's daughter here in town who takes it and she would not take it if it were not good.'"

"I sent for the Compound at once and kept on taking it until I was all right." — Mrs. BERTHA M. QUICKSTADT, 727 5th Avenue, S., St. Cloud, Minn.

Lydia E. Pinkham's Vegetable Compound may be relied upon as the most efficient remedy for female ills. Why don't you try it?

Were Guests of Messrs. Moss and Odd Fellows at Carnival.

Yesterday afternoon 22 little hearts throbbed with delight when they made the round of attractions at the carnival.

The little tots who are being taken care of by Rev. W. D. Humphrey at the Western Kentucky Orphans Home, on West Seventh street, were the guests of the Messrs. Moss and a committee of Odd Fellows. The children were under the special charge of the committee, who went to the Home and took them to the grounds and made the rounds and watched over them during the whole time. After they had seen everything and enjoyed the attractions as only little children can the Odd Fellows took them back to their temporary home and delivered them to Mr. Humphrey.

FRUIT HILL

Has an Active Farmers' Club of 29 Members.

Every day the farmers are awakening to the importance of understanding scientific, modern methods of cultivation. Before the year is out it is expected that clubs will be organized in every section of the county. County Agriculturist Morgan organized a club of 29 members at Fruit Hill Thursday night. Ed Powers was chosen President and R. I. Cooksey Secretary. The second Monday in each month will be the regular times for meeting. Two speakers are already named for the next meeting.

Purely Personal.

Mr. and Mrs. Percy Richardson, of Clarksville, came over Wednesday night and spent Thursday with Mrs. Richardson's mother, Mrs. Fannie C. Hille.

TEST OF WEBB BILL

Will Be Made in the Appellate Court May 16.

Frankfort, Ky., May 2.—The first test of the Webb bill will be made in the court of appeals May 16, when the case of the Adams Express company vs. the Commonwealth, from Whitley county, in which the company was fined \$100 in nineteen cases for carrying liquor from Jellico and High Cliff over into Whitley county, will be argued.

Made Even Dozen For April.

Darmstadt, Germany, April 30.—Lieutenant Von Mirbach and Lieutenant Von Brunn were killed in an aviation accident here this evening. In an attempt to land their biplane collapsed only a few feet above the ground and fell upon the aviators.

"MADE TO MAKE GOOD"

This is our first thought in buying buggies:—They must wear well and be made from good material.

This season we have been very careful in placing our orders and we have some of the best values ever offered by anyone. Take notice of a few points we mention.

Easy riding springs. 12-inch wrought 5th wheels. Hardwood slatted bottoms. Solid foot dashes.

Genuine leather upholstery. Leather strap boots and welted tops. Full size tops.

We will be glad to show and explain the good points of our buggies. We have the Staver, Peters, Poste Bros., Sayers & Scoville and genuine Geo. Delker, as well as several other brands.

Murderous Fiend.

Hampton, S. C., April 30.—Three prominent Hampton county white men were killed and several wounded in a pitched battle this afternoon and tonight with Richard Henry Ausin, a negro accused of attempting to criminally assault a white woman at Luray, S. C.

Bloodhounds are being rushed to the scene from Barnwell, S. C., and from the penitentiary. Governor Bleas also has been requested to send troops to the swamp where Austin is.

Lane is Up-To-Date.

In rescinding an order barring automobiles from Yosemite Park, Secretary Lane says opposition to them as lacking picturesqueness is as absurd as the fight that was made against steam in the navy.

New Regulations on Trunks of Travelers.

Chicago, April 30.—Forty-five inches is the longest trunk that may be carried as free baggage on railroads in the United States after June 1. Also the new rules frown on the trunk with bulging side or bottom designed so that it must stand in certain position so the gowns and hats inside will travel right side up. It may be some time, however, before the "freak" trunks can be refused. Notice is required in order to reject them lawfully.

Five pounds for each inch over forty-five inches is the rate of excess charge that will be levied under the new baggage rules.

Former Cadiz Girl.

Mrs. D. Warren Bridges, formerly Miss Nancy Lee Jagoe, of Cadiz, died at her home in Richmond, Ky., aged 27 years. She leaves two sons, one an infant a few weeks old. The body was brought to Cadiz for interment.

Deep Snow in Canada.

Winnipeg, Man., May 2.—A heavy fall of snow was general through Alberta province April 30. Seventy-five per cent. of the spring wheat in Northern Alberta is above the ground.

Blames The Parks.

In its report on the social evil in that city, the Philadelphia Vice Commission declares that the public parks are among the worst resorts.

NEW WORDS NOT ADMITTED

Firm Stand Taken by Johnson and
Others Against Innovations in
the Language.

Always during the history of every
tongue men have insisted on main-
taining a firm stand against the en-
trance into it of new expressions of
any sort. In so doing they have hon-
estly believed that they were actu-
ated not by senseless but by a holy zeal
for purity of speech. The strongest
sort of opposition has been fre-
quently offered to the recognition of
words which it would now seem to
us we could hardly do without. The
feeling existed in high places.

In 1773 the fourth edition of
Johnson's dictionary was published.
It was the last edition which ap-
peared under his supervision. Bos-
well tells us that he in vain urged
Johnson to insert civilization. This
was just then beginning to take the
place of civility in the sense of being
opposed to barbarism. He refused
to acknowledge the intruder. Hum-
iliating he admitted to be a word
frequently used, but he did not know
it to be legitimate English—what-
ever that means. So, though he in-
serted the noun humiliation, the cor-
responding verb and adjective are
not found in his final edition.

Not long after this time develop-
ment appeared in the title of a book.
Its author was sternly informed by
one of his reviewers that there was
no such word in the language. Wil-
liam Taylor of Norwich, somewhat
renowned for the peculiar words he
used in his writings, sent an article
to the Monthly Review, in which oc-
curred the verb rehabilitate. It was
at once struck out by the editor. It
was not English, Taylor was in-
formed, and would not have been
understood. It may be said in pal-
liation if not defense of this action
that it was not until the latter half
of the nineteenth century that the
word became well known, especially
in the sense of whitewashing ques-
tionable characters.—Prof. T. R.
Lounsbury, in Harper's Magazine.

REALLY GOOD RECIPES

WILL BE FOUND VALUABLE AD-
DITION TO THE MENU.

Tomato Soup in Most Approved Fashion—Excellent Sandwiches for
Buffet Luncheon—Oatmeal
Cookies Easy to Make.

Tomato Soup—Take one quart can
of tomatoes, cook and strain through
colander to remove seeds and pulp;
put juice in porcelain pan and as it
boils slowly, add a pinch of soda,
one teaspoon salt, a little pepper,
lump of butter and sugar if desired.
Stir this constantly until it boils, then
add one quart of rich milk which has
been heated to boiling point. Put one
spoonful whipped cream on each dish
of soup and serve hot with toasted
crackers.

Delicious sandwiches for a buffet
luncheon may be made by spreading
thin slices of bread with melted
cheese, then put in oven until light
brown and serve hot.

A tempting salad is made of can-
ned pears, cut in small pieces, mixed
with pecan meats and served with
mayonnaise dressing.

A good recipe for nut bread is: One
cup sugar, one teaspoon lard or but-
ter, one quart flour, three teaspoons
baking powder, one teaspoon salt,
one cup chopped nuts, enough milk
to make a soft dough. Let rise twenty
minutes and bake in moderate
oven.

Oatmeal Cookies.—One cup sugar,
one cup shortening, one and two-
thirds lard, one-third butter, two
eggs, two-thirds cup sour milk, one
level teaspoon soda, one-half teaspoon
baking powder, one teaspoon cinna-
mon, one cup currants, one scant cup
oatmeal, add flour enough to make
dough stiff enough to drop.

White Layer Cake.—Beat one-half
cup butter to a cream, adding gradu-
ally one and one-half cups sugar;
then add one cup milk; sift together
two and one-half cups of flour with
two teaspoons baking powder; add
this to mixture and beat for five min-
utes, then add whites of six eggs,
beating all together thoroughly.

Chocolate Gelatin.

Dissolve one-quarter box of gelatin
in 1 pint of milk over the fire; add
scant half-cup grated chocolate or co-
coa. Cocoa makes less rich and more
easily digested dessert. Using only
one-quarter cup cocoa makes a palat-
able result, and still less rich than
either of the other mixtures. When
gelatin is dissolved add scant cup
sugar and bit of salt and vanilla fla-
vor. Pour into mold and set aside
to harden. Serve with plain cream,
thin or thick. Or whip cream and
flavor with vanilla. One-half cup of
heavy cream whipped is usually
enough for this amount of jelly, which
makes a generous serving for two ex-
tremely fond of chocolate.

A milk-thin boiled custard, lemon
flavored, may be used instead of
cream. Also a teaspoon of cocoa may
be beaten into the cream, and when
put on the jelly dotted with tiniest
heads of the jelly.

Pond Lily Eggs.

Select nice oval eggs, boil in large
kettle full of water for at least twenty
minutes. Have water hot but not
boiling when eggs are put in, then
keep water simmering, but not boiling
or they may crack. When time is up
take up carefully and let cold water
run over, to loosen shell, remove shell
carefully and then split the whites in-
to five or six petals—begin at small
end and do not cut entirely to bottom.
Now remove yolk carefully, wash
well, add a little boiled dressing, salt
and paprika, and replace enough of
the mixture to simulate a half open
lily, place on bed of lettuce and lay
strips of green peppers so as to rep-
resent a stem.

Brown Hash.

Free cold, cooked beef or mutton
from fat or gristle and chop fine, sea-
soning it very highly with salt and
pepper. Add an equal quantity of
cold potatoes, also chopped fine. Put
in a frying pan, adding sufficient
stock—water must be used if you
have no stock—to moisten thorough-
ly. Heat slowly, stirring often until
very hot. For one pint of hash spread
over the top one tablespoonful of
sweet beef dripping or butter, cover
closely and draw to one side for
twenty minutes, where it will crust
on the bottom without burning. Fold
over like an omelet and turn out on
a hot platter.

Care of Machines.

Sewing machines should be treated
with great care if you would have
them last a long while and do perfect
work. After every two days of steady
work oil the machinery thoroughly,
but be careful to wipe away all super-
fluous oil. Run the machine rapidly
out steadily without any thread for
five minutes after oiling. This will
cause the oil to scatter, and the su-
perfluous drops can be wiped away
and none will be left to stain the ma-
terial you are working.

To Remove Teacup Stains.

Teacups, even when carefully kept,
sometimes have dark stains at the
bottom, caused by the action of the
acid in the tea. Salt, slightly
moistened, will remove these, but in
the case of very fine china sometimes
scratches it a little. Powdered white-
ting will be found quite harmless and
usually good.

Not An Experiment.

Paint Lick, Ky.—Mrs. Mary Free-
man, of this place, says: "Before I
commenced to take Cardui, I suffer-
ed so much from womanly trouble.
I was so weak that I was down in my
back nearly all the time. Cardui
has done me more good than any
medicine I ever took in my life. I
can't possibly praise it too highly."
You need not be afraid to take Car-
dui. It is no new experiment. For
fifty years, it has been found to re-
lieve headache, backache, and similar
womanly troubles. Composed of
gentle-acting, herb ingredients, Car-
dui builds up the strength, prevent-
ing much unnecessary pain. Try it
for your troubles today.

On Pennsylvania Farm.

Here is one of the stories, says the
American Greeting, from the old man's
row in front of the barber shop: One
man said back in Pennsylvania they
farmed the land where the hills were
so steep that when they planted pota-
toes one man had to hold them in a
furrow while another man covered
them up. When they dug them in the
fall they were simply allowed to roll
to the bottom of the hill before any
attempt was made to pick them up.

Use a Brush.

A paint brush is an excellent thing
to remove dust from cracks and
carved furniture. It reaches crevices
where a dust rag never could find the
dust. Try this when next you clean
the baseboards, window sashes, etc.
You will never be without a brush.

PRETTY COLOR SCHEME

FLOWER PUNCHES A NOVELTY
FOR AMBITIOUS HOSTESS.

Just the Requisite "Something New"
That Is So Much Desired—Nastur-
tium Probably the Easiest
That Can Be Made.

When a color scheme is to be care-
fully carried out the novelty-loving
hostess can use flower punches or
tees.

An appetizing nasturtium punch is
made by chopping fine the fifty freshly
gathered nasturtium blossoms rubbed
to a paste with four tablespoonfuls of
sugar. Boil for five minutes a pound
of sugar and a quart of water; take
from the fire and add the juice of one
lemon and two oranges, the grated
rinds of the orange and the nastur-
tium paste. Let the mixture get cold,
freeze and pack away for at least two
hours. Serve in sherbet glasses gar-
nished with a nasturtium blossom and
the glass set in a bed of leaves and
tendrils.

Fresh violets may be used in the
same way, adding the juice of two
lemons and omitting the oranges.
Just before freezing stir in a pint of
purple grape juice, and when frozen
stir in a meringue made from the
well-beaten whites of two eggs and a
tablespoonful of powdered sugar.
Stand three hours to ripen and gar-
nish with candied violets. If you can-
not get the fresh violets, color with
grape juice only.

For rose ice, wash carefully a pint
of freshly culled pink or red rose
petals and pound them to a paste with
two ounces of granulated sugar. Add
a quart of water and pound of sugar,
boil ten minutes and cool without
straining, when the juice of half a
dozen oranges is added. Freeze and
serve in sherbet glasses, the stems
twined with rose leaves and the ice
garnished with candied rose petal and
a mat made of petals and foliage on
the plate.

For a green punch chop tender nas-
turtium leaves and tendrils—enough
to weigh half a pound—and rub to a
paste with two ounces of granulated
sugar. Boil for five minutes a pound
of sugar and quart of water, add juice
of two lemons and two oranges and
the leaf paste. When cold freeze and
stand three hours. This may be served
with a green liquor poured around
it. A few drops of vegetable coloring
may be added if needed.

A mint ice may be made in the
same way, using sixteen large stalks
of mint. Serve with creme de menthe
poured over the ice.

In making any flower punch be sure
the petals are fresh, have been care-
fully washed and are not culled from
bushes that have been sprinkled with
disinfectants.

Veal Recipes.

Veal Collops—Cut veal from leg or
other lean part into pieces size of an
oyster and season with pepper, salt
and a little mace. Rub some over
each piece, dip in egg, then into crack-
er crumbs and fry. They both look
and taste like oysters.

Mince Veal on Toast—Take cold
veal which has been left over, chop
fine, add small onion, grated, salt and
pepper. Sprinkle sifted flour over all,
mixing all together. Place tablespoon
of butter in hot dish, add meat. When
browned pour over boiling water until
it covers and let boil until thick-
ened. Serve on hot toast and garnish
with parsley.

Orange Charlotte.

One-third box of gelatin, one-half
cup of cold water, one-half cup of hol-
ling water, one cup of sugar, juice of
one lemon, one cup of orange juice
and pulp, whites of three eggs. Soak
the gelatin in cold water until soft,
add the boiling water, sugar and
lemon juice and a little of the grated
rind. Cool in a pan of ice water and
when it begins to harden beat in the
stiffly beaten whites of the eggs.
Serve with a custard made with the
yolks of the eggs, one pint of milk,
three heaping tablespoons of sugar
and a little salt. Flavor to taste, or
you can cut it up in pieces and serve
with whipped cream.

New Kerchiefs.

At one time any handkerchief that
had its snowy whiteness sullied by a
colored border was considered poor
taste, but now we not only think col-
ored borders quite desirable, but pale
colored handkerchiefs are also cho-
sen, and the newest thing is a colored
handkerchief with a different colored
border. In both handkerchief and hem
the colors are very delicate, almost
pastel in tints.

Doughnuts.

One egg, one and one-half cupsful
of sugar, one cupful of sour milk, one
cupful of sweet milk, one large table-
spoonful of cream, two teaspoonfuls of
cream of tartar, one teaspoonful of
soda, a pinch of salt and a dash of
cinnamon and nutmeg. Flour enough
to handle.

Snowball Biscuit.

Sift together four cups flour, four
teaspoons baking powder and a pinch
of salt; add one cup of sweet milk
and stir into the dough until thick;
flour the hands and roll the dough
into small balls. Bake in a hot oven.

Raisin Pie.

One-half cup raisins soaked over
night in cup water. Next morning add
one cup sugar, boil together. Mix
one-half tablespoon cornstarch in a
little water. Stir in. Add one beaten
egg, juice of one lemon.

THROWN OUT OF HIS BUGGY

Will Dickinson, of Trenton,
Sustained Painful In-
juries.

HORSE BECAME FRIGHTENED

And Ran Away Rendering Vic-
tim Unconscious--Buggy
Ruined.

Mr. Will J. Dickinson was thrown from his buggy at Pembroke Thursday and was seriously injured.

Mr. Dickinson's home is at Trenton. Thursday he drove down to Pembroke in his buggy and while driving through town his horse became frightened and ran off. Mr. Dickinson was thrown from the buggy against a paling fence. The impact was so great that he was rendered unconscious and sustained a serious wound in one side by a broken paling. He was taken up by friends and medical aid summoned. After some time he regained consciousness and later was placed in an automobile and taken to Trenton.

The buggy, which was a new one, was completely demolished. While Mr. Dickinson is not considered in a critical condition it will become time before he will be able to be out.

DR. SANDBACH'S FATHER

Victim of Heart Trouble Dies
Suddenly.

Dr. W. S. Sandbach, of Casky, received a telegram Thursday morning informing him of the sudden death of his father, Mr. J. O. Sandbach, the night before, at his home in Ohio county. Death was due to heart trouble. Mr. Sandbach was 70 years old and a prominent and influential citizen of his section. He was a native of Indiana, but had been a resident of Kentucky for a long time. Dr. Sandbach and his sister, Miss Lula Sandbach, left Thursday night for Ohio county to attend the burial yesterday.

ARTHUR CORNETTE

Operated On For Appendicitis
By Local Physicians.

Wednesday night Drs. Gaither and Stone, assisted by Dr. Bassett, performed a successful operation on Mr. Arthur Cornette for appendicitis at the Infirmary. The patient had been suffering more or less for a week but Wednesday his malady became so acute that, knowing that further delay was dangerous, he determined to have the appendix removed. There was no reason yesterday for apprehension as to Mr. Cornette's not recovering in the usual time.

Bob Taylor Lives,

In the two bright and beautiful books just issued, "Lectures and Best Literary Productions," and "Life and Career" of Senator Robert Love Taylor, handsomely illustrated, you cannot hear again his voice or see the humorous curl of his lips, that convulsed a continent with laughter, but, within the covers of these volumes, are the pictures woven of his wondrous words, and, laughing through their sunny pages, are all of the inimitable stories which he told to the multitudes. In "Life and Career," pens of genius have told his romantic life from its morning in "Happy Valley," through his young and rosy dreams, through stress and storm, through cheering throngs, and on into the waiting shadows, loved and laurel crowned.

We expect to sell millions of these books. First edition going fast.

Brighten Up
Sherwin-Williams Paints & Varnishes

**If Your House Needs Painting
Use S. W. P.**

If your house, or barn, or buildings of any sort, need painting, don't put it off. Now—this spring—is the time to paint. A building that is kept protected from the weather, damp, sun and so on, will outlast by years a building that is allowed to go unpainted or poorly painted. It is much better business to save the building you have than buy a new one. And besides this, well painted buildings are much pleasanter to live in, and bring a much higher price if you should want to sell, than dingy, unpainted buildings.

To arrive at the cost of painting, figure the number of square feet a gallon will cover, and how long it will last, not what the paint costs a gallon. Don't simply figure what it costs to paint your house or barn, but what it costs to keep it painted year in and year out. S. W. P. is honestly made of the best raw materials obtainable, and will prove more economical and satisfactory to the man who pays the bill than either hand mixed lead and oil or the so-called "cheap ready-mixed paint." We are agents for Sherwin-Williams Paint, Prepared (S. W. P.). Come in and we will be glad to discuss the paint and varnish question with you.

MEDAL CONTEST

To Be Given By The W. C. T. U.
Tuesday Night, May 8.

The W. C. T. U. Medal Contest on next Tuesday night should attract a large audience. The young ladies who will take part are being trained by Mrs. Florence Loomis, who is Superintendent of the State Medal Contest Work of the W. C. T. U., and has had a long experience in preparing for these declamatory contests; and this assures us that the training will be all that it should be. This will be an interesting occasion and will prove a material benefit to the community. A pleasing program of music will also be rendered, including solos, quartets, and choruses. These will all be given by local talent. There will be no charge for admission, but a silver offering may be given at the door. Let us all attend and spend a pleasant evening with the young people.

Honorable Mention.

Two Christian county people received honorable mention in the Courier-Journal's contest Wednesday, being included in the ten best contestants counted the day before. Miss Carrie Baker got 70 of the 77 guesses right and Mr. Lewis Western got 69. A great many local people sent in guesses, but these were the first ones to be mentioned as probable winners.

Eludes Pursuers.

Allendale, S. C., May 2.—After eluding posses for more than twenty-four hours, Richard Henry Austin, the negro who killed two men and wounded four near Hampton, still was at liberty late last night. He was encountered by a small posse, but escaped after an interchange of shots.

Mr. R. W. Norwood, of Nashville, was in the city Thursday.

Civic League.

The Civic League will meet this afternoon at 4 o'clock, at the Methodist church.

In addition to the election of officers delegates to the State meeting at Middlesboro will be chosen. A full attendance is desired.
